

ඔයාගේ **Version 1 / 5-week MVP** එකේ core problem එක:

Sri Lankan Pvt Ltd business එකෙන් අවශ්‍ය tax/financial documents එකතු කරලා, organize කරලා, completeness/checks කරලා, Auditorට clean document package එකක් යැවීම. Auditorට ඒවා එකම workspace එකකින් receive කරලා review කරන්න පුළුවන්.

ඒ අනුව subscription දෙකක් තිබීම හරි.

The actual TaxEaseLK workflow

මේක තමයි ඔයාගේ V1 එකේ main product:

```

graph TD
    A[Upload Documents] --> B[Categorize]
    B --> C[Checklist]
    C --> D[Missing Documents]
    D --> E[Complete Package]
    E -- SEND --> F[Auditor Review]
    F --> G[ACCEPT]
    F --> H[REQUEST]
    G --> I[DOCUMENT]
    H --> I
  
```

මෙතන CIT calculation නැහැ

V1:

- ✗ CIT calculation
- ✗ Tax engine
- ✗ Tax adjustment engine
- ✗ Tax liability calculation
- ✗ Automatic tax filing

V2:

- ✓ CIT calculation
- ✓ Tax adjustments
- ✓ Tax engine
- ✓ Tax validation
- ✓ CIT reports
- ✓ More advanced tax workflow

මේක 5 weeks වලට scope එක ගෙවික් realistic කරනවා.

Business subscription එකේ core value

Business ownerට TaxEaseLK කියන්නේ:

"මගේ Auditorට අවශ්‍ය documents මොනවාද? මොනවා missing ද? මොනවා already sent ද? Auditor මොනවා request කළාද?"

Dashboard එක:

CIT DOCUMENT PREPARATION		
Financial Year: 2025/26		
		82%
Documents	18 / 22	
Missing	4	
Auditor Status	Waiting	
[Upload Documents]		
[View Missing Documents]		
[Send to Auditor]		

Auditor subscription එකේ core value

Auditorට:

"මගේ clientsලාගෙන් documents එකින් එක WhatsApp/email වලින් ගන්න අවශ්‍ය නෑහැ. හැම company එකම එක workspace එකකින් manage කරන්න."

Auditor dashboard:

AUDITOR DASHBOARD		
Companies	12	

Awaiting Documents	4	
Ready for Review	5	
Action Required	3	
ABC (Pvt) Ltd		
Documents: 22/22		
Status: Ready for Review		
[Open Review]		

💰 Why two subscriptions?

Because **two different users get two different values.**

Business pays for:

Document preparation + organization + communication

Auditor pays for:

Multi-company management + review + document requests + workflow

So:

Business

Rs. 3,900/month

Auditor

Rs. 6,900/month

You are not charging both sides for the same thing.

One important change to your terminology

Since V1 doesn't actually calculate or file CIT, don't market it as:

"CIT calculation software"

Instead:

TaxEaseLK

Corporate Tax Document & Auditor Collaboration Platform

or simpler:

Prepare. Organize. Send. Review.

Then V2 can add:

Calculate. Validate. File.

This gives you a much tighter 5-week MVP and makes the two-subscription model directly connected to the actual product.
