

THIMNA DEWMI

Business Data Analytics Student & Aspiring Data Scientist

Email: thimna.dewmi@example.com | Colombo, Sri Lanka | LinkedIn: linkedin.com/in/thimnadewmi

CAREER OBJECTIVE

Results-oriented Business Data Analytics undergraduate with deep expertise in predictive modeling, statistical inference, and enterprise business intelligence.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn), R, SQL, TypeScript

BI & Visualization: Power BI, Tableau, Advanced Excel, Matplotlib, Seaborn

Data Science: Predictive Modeling, Regression, Classification, K-Means Clustering

Databases & Tools: PostgreSQL, MySQL, Git, GitHub, Jupyter Notebooks

EDUCATION

BSc (Hons) in Business Data Analytics

Expected Graduation: 2026 | GPA: 3.85 / 4.00 | Dean's List Honoree

KEY PROJECTS

1. Customer Churn Prediction Engine - Python & Scikit-Learn

Built gradient boosting classifier achieving 92% accuracy, reducing simulated churn by 18%.

2. Interactive Executive Sales & KPI Dashboard - Power BI

Analyzed 500,000+ retail sales transactions with automated DAX metrics and revenue forecasting.
